### Editorial

Without continual development and progress, such words as advancement, accomplishment, and success have no importance. Journal Rare Disorders: Diagnosis & Therapy is an open access scientific journal which mainly focuses on articles of rare and chronically debilitating diseases. It is our pleasure to announce that during year 2019, all issues of volume 5 were published online on time and the print issues were also brought out and dispatched within 30 days of publishing the issue online. Journal Rare Disorders: Diagnosis & Therapy during this year also brought out 7th Global Congress on Rare Diseases & Orphan Drug conference proceedings, which consisted of ~ 50 abstracts. All published articles of this journal are included in the indexing and abstracting coverage of Index Copernicus, China National Knowledge Infrastructure (CNKI), Directory of Research Journal Indexing (DRJI), Publons and Secret Search Engine Labs.

During the calendar year of 2019, IPRDDT received a total of 24 manuscripts, out of which 1 articles (10%) were rejected in the preliminary screening due to plagiarism or being out of the format and peer review process. During 2019 around 17 articles were subjected for publication after they are accepted in the peer review process. In the 6 issues of volume 5 published during the year 2019, a total of 17 articles were published. Articles were

published from authors all around the world. Globally articles have been accessed by the research scientists and also cited.

I take this opportunity to acknowledge the contribution of (Dr. Shriram H. Bairagi) during the final editing of articles published and the support rendered by the editorial assistant, in bringing out issues of IPRDDT in time. I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of IPRDDT, the office bearers for their support in bringing out yet another volume of IPRDDT and look forward to their unrelenting support to bring out the Volume 6 of IPRDDT in scheduled time.
